

# Reception of Museum Visits by Groups

July 14, 2020 The Bato Hiroshige Museum of Art

## 1. Policy Regarding Acceptance of Group Reservations

- We accept visits by groups which have taken sufficient steps to prevent infection by COVID-19.

## 2. Please assist us with the following requests regarding your visit (and please share this information with your group members before the visit)

- ① The group sponsor will please check the health of the group.
  - Any group members having any symptoms or a fever of 37.5 C° or higher will not be admitted to the museum, so please check your group members' health beforehand.
- ② We ask for your understanding that all visitors must wear a mask while in the museum.
- ③ We ask that all visitors without fail disinfect their hands at the entrance (disinfectant is supplied).
- ④ Individual visitors are asked to fill out the *shisetsu riyo uketsuke hyo* (facility use acceptance form). Group visitors may instead have a representative provide his or her name, address, contact information and whether or not a health check of all members has been conducted.
- ⑤ To avoid close contact, please maintain a 2 meter distance from other visitors and refrain as much as possible from talking.
- ⑥ If the group is especially large, we may need to limit how many visitors enter the museum at the same time.
  - For example, your group might be split, and while half enters the museum and views the exhibits, the other half would explore the museum exterior and its surroundings. Recent groups have visited the adjacent folk museum and shrines and temples.
  - To assure maintenance of a 2 meter distance between visitors, we have been limiting the number of group and individual visitors in the museum at the same time to about 30.

## 3. On the Day of Your Visit

Group members should wait outside the museum while the representative checks the group in.

## 4. Miscellaneous

As a COVID-19 countermeasure, we have suspended museum talks explaining the works.
